

VALVE AUTOMATION SOLUTIONS

PNEUMATIC ACTUATORS

BETTIS	Pneumatic Scotch Yoke Actuators; Rack and pinion actuators; Stainless steel option
FIELDQ	Rack and pinion pneumatic actuators with modular options for integrated controls
KEYSTONE	Compact rack and pinion pneumatic actuators; low profile direct mount options
MORIN	Pneumatic Scotch yoke actuators with stainless steel cylinder options
KINETROL	Vane type pneumatic and electrohydraulic actuators for rotary and damper applications
NUMATICS	Standard and specialty linear air cylinders; Aluminum, steel and stainless steel

ELECTRIC ACTUATORS

EIM	Multi-turn and quarter turn electric actuators
BETTIS	Electric Quarter Turn Operators
KEYSTONE	Electric Quarter Turn Operators

HYDRAULIC/ELECTRO-HYDRAULIC UNITS

MEA	Electro-Hydraulic linear actuators; Hydraulic coker valve operators
BETTIS	Electro-Hydraulic quarter turn operators; Hydraulic rotary actuators
KINETROL	Vane type electrohydraulic actuators for rotary and damper applications

AUTOMATION ACCESSORIES

TOPWORX	Rotary and linear limit switches; Integrated solenoid valves; Bus communicating switch solutions; Partial stroke test devices
GO SWITCH	Magnetic Trip Limit Switches
ASCO	Solenoid valves; Redundant Control Systems for SIS; Air conditioning solutions and filters
FISHER	Switching valves; Trip valves; Airset regulators; Line pressure supply systems; Positioners for rotary and linear valves; Digital valve controllers
BETTIS	Limit switches; Line break detection; Gear operators
MEA	Phoenix hydraulic supply skids for high torque actuator applications
DYNATORQUE	Partial stroke test mechanical stops; Gear operators; Chainwheels
ELLIOTT GEAR	Quarter turn and multi-turn gear operators
CUSTOM SOLUTIONS	Pneumatic control panels; Speed controls; Vents and mufflers

SHOP & FIELD SERVICES

FISHER SERVICES	Shop and field repair services for Emerson products; Calibration Services; Testing to customer specifics; Diagnostics
SCALLON AOV & MOV SERVICES	Shop or field installation of accessories; Repair of non-Emerson valve products; Assembly, startup, calibration and preventative maintenance for any air or motor operated valve
VALVE REPAIR SERVICES	Repair services, calibration, troubleshooting for all automated valves
